

## Motorcycle Front Light LTE1705

### Features :

- 5pcs GENIII 3W led in each headlight as light source, high light intensity.
- Wide lens angle design maximizes optic output effect.
- Adopted high transparency polycarbonate material, can resist heavy impact and color fade.
- Color options with red, blue, amber and white are available.
- Flashing pattern memorize function.

### Technical Specifications :

<b>Light Characteristics</b>	LED Power	5PCS 3W LED
	LED Lifespan	50000H
	Flash settings	2-4HZ
	Lens	TIR
<b>Electrical Characteristics</b>	Voltage	DC 10-30V
	Max Power	15W
<b>Physical Characteristics</b>	Color Option	Red,Blue,Amber,White
	Ambient temperature	-40 -+75°C
	Waterproof	IP66
	Pattern Memory	YES
